Summary

I am a results-driven Project Manager with a track record of leading technical and cross-functional teams in fast-paced digital environments. Proficient in Agile and Waterfall methodologies, I manage complex projects with clarity, structure, and a strong focus on delivery. I leverage tools like Excel and Power BI for performance tracking, and support development teams with a working knowledge of modern technologies. With a background in engineering and a people-first leadership style, I help teams stay aligned, motivated, and successful.

Work experience

FedEx Express
Kraków
02.2026 – now

Project Lead / Solution Design and Implementation Specialist

- Leading complex projects from assessment to delivery, ensuring structured execution
- Coordinating cross-functional teams (Operations, CX, Pricing, Customs, IT, Sales)
- Analyzing requirements and operational gaps to improve processes and solutions
